

A BIT ABOUT US

A core team based in Bozeman and an expansive network of associates assist people in addressing growth and change in the Northern Rockies to benefit communities, protect landscapes, and conserve natural values through 4 key actions.

4 KEY ACTIONS

- Technical Assistance
- Training
- Facilitation Services
- Information

Stay with us, we'll explain

1. TECHNICAL ASSISTANCE

- Land Use Planning
- Project Development
- Team Building

How We Work

At Future West the term "technical assistance" does not relate to assistive technology, but rather consultation or, at its most simple definition, help.

Technical Assistance In Action

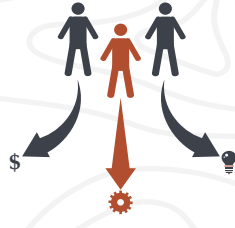

BIG HOLE RIVER CORRIDOR CONSERVATION

Future West provided the technical assistance to produce accurate, defensible floodplain maps for 116 miles of the Big Hole River. These maps will support the process to update floodplain regulations to benefit landowners and conserve the Big Hole river corridor.

2. TRAINING

- Workshops
- 1:1 Assistance
- Training Grants

How We Work

"Capacity building" is our process of developing and strengthening the skills, instincts, abilities, processes, and resources that organizations and communities use to survive, adapt, and thrive.

Training In Action

HIGH DIVIDE CAPACITY BUILDING

Future West worked with several High Divide conservation organizations to increase the local capacity of their efforts. Through organizational development, peer-to-peer learning, best practice facilitation, and small grants these organizations were able to bolster their operations and achieve financial stability to seek out additional investment.

3. FACILITATION SERVICES

- Strategic Planning
- Community Outreach
- Meeting Facilitation

How We Work

Future West supports nonprofits and collaborative groups to achieve a shared vision through facilitating meetings, leading strategic planning, and supporting organizational development.

Facilitation Services In Action

BUTTE FACILITATION PROJECT

Future West partnered with InteResources Planning, Inc. to facilitate a citizen-driven preservation plan for the city of Butte, Montana. The plan will help guide the preservation and restoration of Butte's rich cultural heritage.

4. INFORMATION

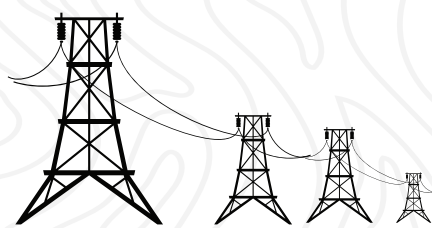

- Fiscal Analysis
- Independent Reports
- Best Practices

How We Work

Future West develops and shares the information key stakeholders need, giving them the tools and options to make better decisions regarding land use and conservation.

Information In Action

MSTI REVIEW PROJECT

Before a proposed 500KV power line was constructed in central Montana, Madison County requested information from a team of five non-profits, including Future West, to develop a "least cost" analysis of the proposed transmission routes, so they could understand the costs and benefits to counties and landowners.

DONATE

Get involved if you care about the future of the communities, landscapes, wild lands, and wildlife of the Northern Rockies. Support from donors like you is vital to ensure that what we love about this place endures far into the future.
